PBUSE Component Listing Library

The PBUSE Component Listings found on this web site are for use by PBUSE Unit Level Personnel. Once they have been extracted and imported to the PBUSE application, individuals should review with the current updated hard copy if available to insure the imported component list is current.

Updated and new Component Listings will be added, modified as they become available. State PBUSE Unit Level POCs will be notified whenever additions or updates are done.

Questions in regards to these component lists and procedures for downloading the components should be addressed to the Logistics Training Center.

[PBUSE Functional Manager.](#)
[Component listings below. \(PDF Format\)](#)

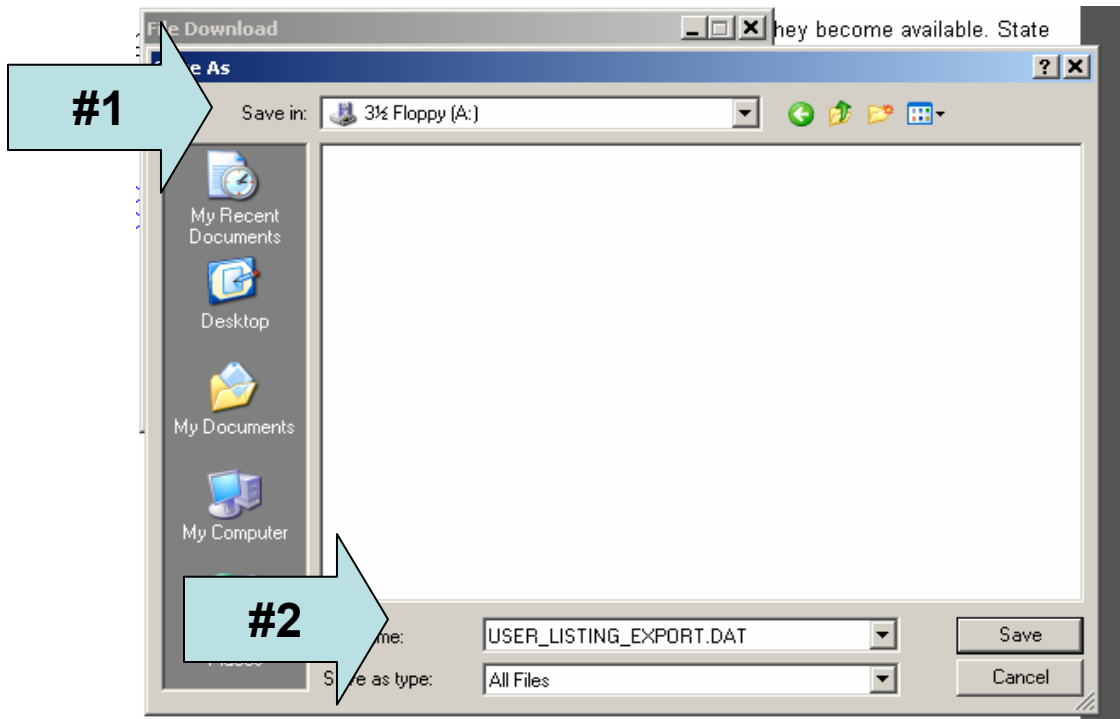

Right-Click on Component List (i.e. user_listing_export.DAT) and select Save Target As...

Make sure you do the following 3 things before you save:

1 – Insure Save in: is 3½ Floppy [A:] drive and you have a blank formatted disk, or save it to your desktop.

2 – Insure Save as type is “All Files”

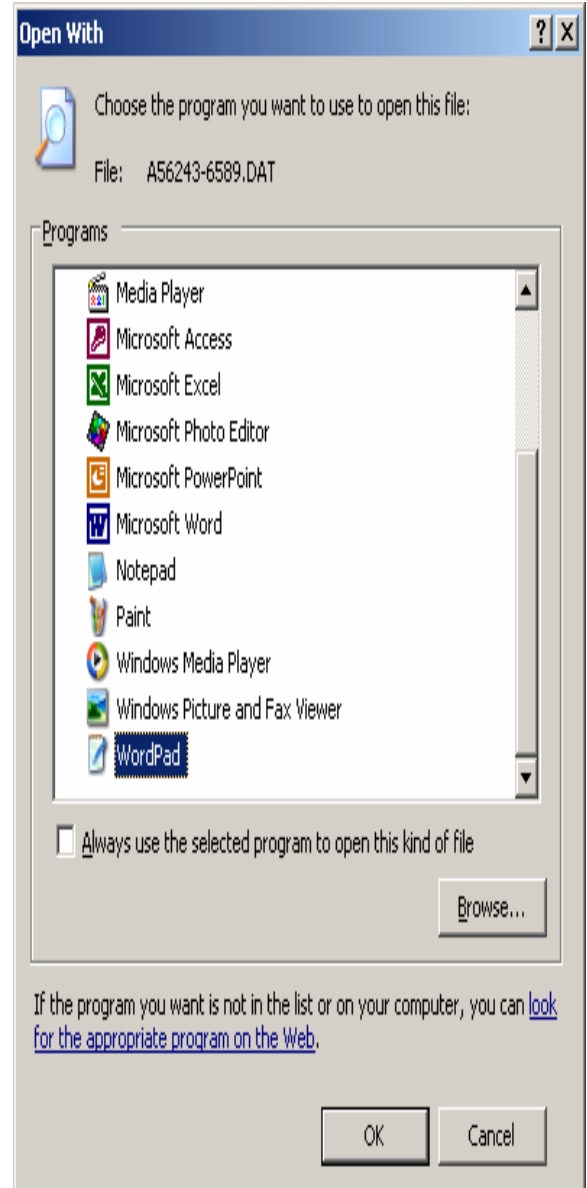

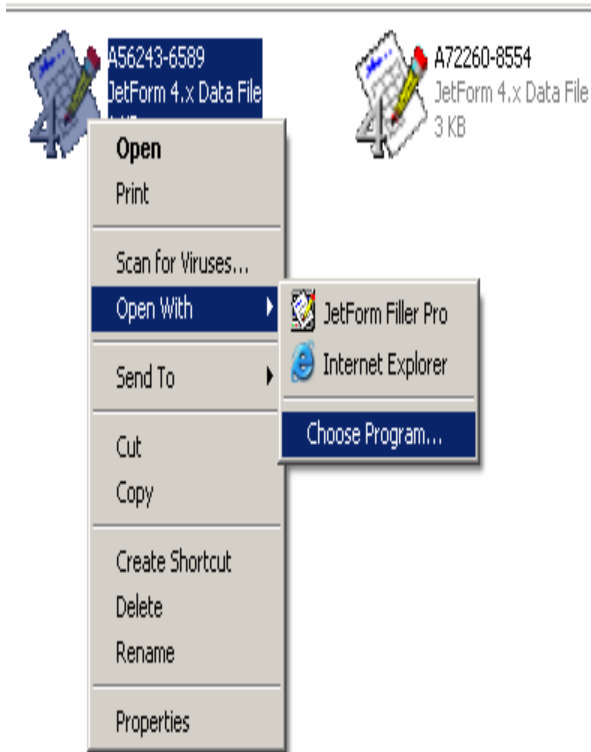

Will save in native format (i.e. .txt or .dat)

This will now save the Component List to a floppy diskette or your desktop to be used in PBUSE. The following steps are to review or edit the component list file:

To review or edit:

1 – Right Click the file to be reviewed/edited and select Open With/Choose Program

2 – Recommend WordPad as your program of choice

Data will be displayed in raw format and can be reviewed/modified as needed.
